

Shakita Trigg

International Engineering Manager FedEx Ground

Shakita Trigg is the International Engineering Manager for FedEx Ground and a certified Six Sigma Green Belt and SAFe® Agilist. Shakita holds a Bachelor of Science in Industrial and Systems Engineering from The Ohio State University and Master of Science in Engineering Management at Western New England University. She is the recipient of numerous awards and recognition including the Information Technology Hall of Fame recipient, Business Excellence Award, Pittsburgh Magazine's 40 Under 40, YWCA's Tribute to Women Leadership Award in the Science and Technology category, and Pittsburgh Courier's Fab 40 Emerging Leaders honoree.

With more than a decade experience in industrial engineering and transportation logistics, Shakita continually inspires the people she works with and leads by displaying a level of authority, accountability and influence. Her innate leadership skills have allowed her to work effectively with teams to help design, implement and evaluate new processes and technologies. She was one of five young professionals recognized in the Pittsburgh Magazine for making a difference in science, technology, engineering, and math (STEM) fields. Shakita has also gained knowledge in merger and acquisitions, safety policies and procedures, and applied project management techniques to drive business growth and develop innovative tools, currently utilized all over the country.

Shakita always strives to do her best and successfully balances the demands of her work responsibilities and community participation. That eagerness guided her to take on leadership roles through community involvement including Board of Director member of YWCA of Greater Pittsburgh and United Way of Southwestern Pennsylvania in addition to being a Circle of Red member for American Heart Association. She also serves as a peer mentor and member of the Women's Leadership Council. Driven, dedicated, and achiever is what describes Shakita Trigg.
